

NEMATODE SYSTEMATICS AND PHYLOGENY

NEM 6102 (LECTURE) 2 CREDIT HOURS

LOCATION: ONLINE ONLY. PLEASE NOTE THAT CLASS RESOURCES, ANNOUNCEMENTS, AND ASSIGNMENTS WILL BE MADE AVAILABLE THROUGH **CANVAS** AND DISCUSSIONS VIA **ZOOM**

SPRING 2023

INSTRUCTOR: Dorota Porazinska

Room 2210, Department of Entomology and Nematology, Bld. 970
email: dorotalp@ufl.edu (but please communicate via Canvas email)

OFFICE HOURS: Please send an me a Canvas email anytime to schedule a zoom meeting.

COURSE TA OR COORDINATOR: Parr McQueen
email: jparr.mcquuen@ufl.edu (but please communicate via Canvas email)

“Consider the nematode roundworm, the most abundant of all animals. Four out of five animals on Earth are nematode worms – if all solid materials except nematode worms were to be eliminated you could still see the ghostly outline of the most of it in nematode worms.” E. O. Wilson (*paraphrasing N. A. Cobb*)

COURSE DESCRIPTION: The course provides advanced knowledge on taxonomy and systematics of free-living, plant-parasitic, and animal-parasitic nematodes. It covers in depth morphological and molecular characterization of nematode taxa that provide basis for understanding nematode evolutionary relationships and their classification and identification. In addition, taxa are discussed in the context of their physiology, behavior, and ecological functions.

COURSE GOALS AND/OR OBJECTIVES: By the end of this course, students will:

1. Recognize and define vocabulary and principles used in the science of taxonomy and systematics.
2. Discuss species concepts and tools to delimit specie currently used in Nematology.
3. Evaluate morphological and molecular characters used in Nematology to identify taxa and to create classification.
4. Discuss other characters (e.g., physiology, behavior, and ecological functions) potentially useful in species delimitation.

5. Identify nematodes.
6. Analyze and critique scientific publications relevant to nematode systematics and phylogeny.

REQUIRED TEXT: None

ADDITIONAL RESOURCES: Handbook of Zoology, Vol 2: Nematoda. 2014. A. Schmidt-Rhaesa, Editor. Walter de Gruyter GmbH, Berlin. It is available for purchase [here](#). Soil and Freshwater Nematodes. 1951. T. Goodey. John Wiley & Sons, Inc. New York. Klasse Nematoda. 1984. I. Andrásy, *Bestimmungsbu cher zur Bodenfauna Europas*.

REQUIRED PAPER READINGS: (see schedule for dates):

- Decraemer W, Backeljau T. Utility of classical α -taxonomy for biodiversity of aquatic nematodes. *Journal of nematology*. 2015 Mar;47(1):1.
- De Queiroz K. Species concepts and species delimitation. *Systematic biology*. 2007 Dec 1;56(6):879-86.
- Holovachov O, Camp L, Nadler SA. Sensitivity of ribosomal RNA character sampling in the phylogeny of Rhabditida. *Journal of Nematology*. 2015 Dec;47(4):337.
- Kim T, Lee Y, Kil HJ, Park JK. The mitochondrial genome of *Acrobeloides varius* (Cephalobomorpha) confirms non-monophyly of Tylenchina (Nematoda). *PeerJ*. 2020 May 13;8:e9108.
- Peña-Santiago R, Álvarez-Ortega S. An integrative approach to assess the phylogeny and the systematics of rounded-tailed genera of the subfamily Qudsianematinae (Nematoda, Dorylaimida). *Zoologica Scripta*. 2014 Jul;43(4):418-28.
- Powers T, Harris TS, Higgins RS, Mullin PG, Powers KS. Nematode biodiversity assessments need vouchered databases: A BOLD reference library for plant-parasitic nematodes in the superfamily Criconematoidea. *Genome*. 2020 Jun 11(ja).
- Qing X, Bert W. Family Tylenchidae (Nematoda): an overview and perspectives. *Organisms Diversity & Evolution*. 2019 Sep 1;19(3):391-408.
- Smythe AB, Holovachov O, Kocot KM. Improved phylogenomic sampling of free-living nematodes enhances resolution of higher-level nematode phylogeny. *BMC evolutionary biology*. 2019 Dec 1;19(1):121.
- Smythe AB. Evolution of feeding structures in the marine nematode order Enoplida. *Integrative and comparative biology*. 2015 Aug 1;55(2):228-40.
- Tchesunov AV. Free-living nematode species (Nematoda) dwelling in hydrothermal sites of the North Mid-Atlantic Ridge. *Helgoland Marine Research*. 2015 Dec 1;69(4):343-84.

PREREQUISITE KNOWLEDGE AND SKILLS: NEM 6101 or equivalent. Your curiosity, excitement about nematodes, and appreciation for biodiversity!

INSTRUCTIONAL METHODS: This course will be conducted entirely online through asynchronous activities including viewing pre-recorded lectures (1-2 hrs/week), viewing pre-recorded virtual tours (30 min – 1 hr/week), (readings (2-3 hrs/week), assignments

(30 min – 1 hr/week), and quizzes (30 min/week) on Canvas. Additionally, all students will be assigned to submit a 12 min power point presentation relevant to the topic of nematode systematics and phylogeny.

GRADING POLICIES:

Assignment	Total Points	% of Final Grade
Midterm Exam	100	20%
Final Exam	100	20%
Virtual Practical Exam	100	20%
PPP Presentations	100	10%
10 Quizzes	100	10%
10 Reading Assignments	200	10%
10 Discussions	100	10%

EXAMS

Exams will be limited to 2 hours, and virtually proctored in Honorlock as per university policy. Midterm will cover 1.1 – 3.2 modules, Final Exam 3.3 – 4.4 modules, and Virtual Practical Exam will involve recognition of taxa from relevant images used in the course.

POWER POINT PRESENTATION

The presentation will be on an approved topic of student's choice relevant to the topic of nematode systematics and phylogeny. The presentation will be in a format of a scientific talk delivered at a typical science meeting (12 min). Grading rubrics will be provided ahead of time.

QUIZZES

Each module will become available at 9 am on Wednesdays. Each module will have a narrated lecture that will be summarized in a form of a quiz (a total of 10 quizzes) and supported by virtual tours. Quizzes will be open for one week with a submission deadline right prior to the opening of a new module (following Wednesday 9 am). Quiz questions

will include different formats including multiple choice, matching, fill in the blanks, and short answers. They will be open book, limited to 30 minutes, and not proctored.

ASSIGNMENTS and DISCUSSIONS

All assignments will involve: 1. Reading an article (a total of 10 articles) and answer assigned questions, and 2. Participating in a discussion (a total of 10 discussions). Guiding questions and grading rubrics for discussions will be provided. Again, articles will become available with opening of every module (9 am on Wednesdays). Submission of answers to assigned questions will be due prior to the opening of a new module (following Wednesday at 9 am).

GRADING SCALE (%):

100 – 94	A
<94 – 90	A-
<90 – 87	B+
<87 – 84	B
<84 – 80	B-
<80 – 77	C+
<77 – 74	C
<74 – 70	C-
<70 – 67	D+
<67 – 64	D
<64 – 60	D-
<60	E

COURSE SCHEDULE:

Module	Week	Topic	Reading Assignment
1.1	01 11 2023	Introduction	Smythe et al. 2019
1.2	01 18 2023	Taxonomy and Classification	Decraemer and Backeljau, 2015
1.3	01 25 2023	Species and Phylogeny	De Queiroz 2007
1.4	02 01 2023	Nematode Barcoding Presentation topic due	Powers et al. 2020
2.1	02 08 2023	Enoplida	Smythe 2015

2.2	02 15 2023	Triplonchida Presentation Outline due	na
3.1	02 22 2023	Dorylaimida	Peña-Santiago et al. 2014
3.2	03 01 2023	Mononchida Review	na
	03 08 2023	MIDTERM EXAM	na
3.3	03 22 2023	Diectophymatida and Mermithida Presentations due	na
4.1	03 29 2023	Chromadorida, Monhysterida	Tchesunov 2015
4.2	04 05 2023	Plectida	Tchesunow 2015
4.3	04 12 2023	Rhabditida: Rhabditina	Holovachov et al. 2015
4.4	04 19 2023	Rhabditida: Tylenchina	Kim et al. 2020
4.4	04 26 2023	Rhabditida: Tylenchina Review	Qing and Bert 2019
	05 02 2023	VIRTUAL PRACTICAL EXAM	na
	05 03 2023	FINAL EXAM	na

Disclaimer: This syllabus represents my current plans and objectives. As we go through the semester, those plans may need to change to enhance the class learning opportunity. Such changes, communicated clearly, are not unusual and should be expected.

COURSE POLICIES:

EXAM POLICY: Quizzes/exams for the lecture component will be posted online along with specific completion time deadlines.

ASSIGNMENT POLICY: All assignments submitted on time have a potential to receive full credit, 1-day late to receive 80% of the full credit, 2-days late to receive 60% of the full credit, and assignments that are more than 2 days late receive 0. All assignments have a rubric to guide you through the assignment.

COURSE DELIVERY: All lecture modules, required/extra readings, quizzes, and exams will be available on CANVAS.

GRADES AND GRADE POINTS: For information on current UF policies for assigning grade points, see <https://catalog.ufl.edu/UGRD/academic-regulations/grades-grading-policies/>.

ATTENDANCE AND MAKE-UP WORK: Requirements for class attendance and make-up exams, assignments and other work are consistent with university policies that can be found at: <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>.

ONLINE COURSE EVALUATION PROCESS: Student assessment of instruction is an important part of efforts to improve teaching and learning. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at: <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at: <https://gatorevals.aa.ufl.edu/public-results/>.

ACADEMIC HONESTY: As a student at the University of Florida, you have committed yourself to uphold the Honor Code, which includes the following pledge: *“we, the members of the university of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity.”* You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: *“on my honor, I have neither given nor received unauthorized aid in doing this assignment.”*

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g., assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary

action. For more information regarding the Student Honor Code, please see: <http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code>.

SOFTWARE USE: All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

SERVICES FOR STUDENTS WITH DISABILITIES: The Disability Resource Center coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the Instructor when requesting accommodation

0001 Reid Hall, 352-392-8565, <https://disability.ufl.edu/>

CAMPUS HELPING RESOURCES: Students experiencing crises or personal problems that interfere with their general well-being are encouraged to utilize the university's counseling resources. The Counseling & Wellness Center provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance.
