

Spider Biology Lab

ENY 3830L

Fall 2023 (1 credit)

Wednesdays, Periods 3 - 4
(9:35am - 11:30am)

3118 Steinmetz Hall

Co-requisite: ENY 3830 / ZOO
4926 (Spider Biology lecture)
or instructor permission

Canvas: [ufl.instructure.com/
courses/XXXXXX](https://ufl.instructure.com/courses/XXXXXX)

Spiders are one of the most diverse and successful groups of animals on Earth. They exhibit many interesting behaviors, play important roles in nearly all terrestrial ecosystems, and are intricately interwoven with human society. This course will provide students with **practical, hands-on experience** working with these fascinating creatures, building upon concepts introduced in ENY 3830 (Spider Biology lecture). We will emphasize **field techniques** to observe and collect spiders, as well as **lab techniques** to curate and identify spider specimens. Throughout the semester, each student will create a properly curated **spider collection** emphasizing local spider diversity. By the end of this course, students will be able to **identify over 30 spider families** by sight, as well as additional families using a dichotomous key. Students will also gain hands-on experience in **spider anatomy, behavior, and husbandry**.

Catalog description: Provides practical experience working with spiders, including field collection techniques, identification and curation of spider specimens, and observing spider behavior. Spider collection is required.

Instructors:

Dr. Anthony Auletta

anthonyauletta@ufl.edu

(352) 273-3954

Office: 3102 Steinmetz Hall

Drop-In Hours: Mondays &
Thursdays, 12:00pm - 1:00pm, or
by appointment: [calendly.com/
anthonyauletta](https://calendly.com/anthonyauletta))

Dr. Lisa Taylor

lisa.taylor@ufl.edu

(352) 273-3937

Office: 2211 Steinmetz Hall

Drop-In Hours: Mondays &
Wednesdays, 1:40pm - 2:30pm,
or by email appointment

Student Learning Outcomes

By the end of the course, students will be able to:

-  **Collect** spiders in the field using a variety of techniques and **create** a collection of properly curated spider specimens that showcases family-level diversity.
-  **Identify** spider specimens to the family level, both by sight (for ~32 select families) and by using a dichotomous key.
-  **Describe** the morphological characters that are important for family-level spider identification.
-  **Explain** the natural history of approximately 32 common and noteworthy spider families.
-  **Record observations** of spider behavior both in field and in the laboratory.

In working towards these goals, students will hopefully also foster a sense of curiosity and appreciation for spiders- including their diversity and their many fascinating behaviors.

Teaching Assistants

We are fortunate to have an excellent **teaching assistant** joining us this semester; do not hesitate to contact your TA if you have any questions about the course:

Madison Heisey

Teaching Assistant

Email: mheisey@ufl.edu

Office Hours: By email appointment

Readings & Course Materials

Textbooks & Readings: The following book is **required** for this course. We will use it extensively for spider identification in lab, so be sure to purchase a copy soon and bring it to class each week!

- Ubick D, Paquin P, Cushing PE, & Roth V, eds. (2017). *Spiders of North America: An Identification Manual, Second Edition*. American Arachnological Society. ISBN: 978-0998014609.

The books below are all **optional** but recommended- they are great resources that can be helpful for spider identification. They are worth adding to your library if you're a spider enthusiast!

- Bradley RA. (2013). *Common Spiders of North America*. University of California Press. ISBN: 978-0520315310.
- Levi HW & Levi LR. (2002). *Spiders and Their Kin: A Golden Guide (Revised & Updated)*. St. Martin's Press. ISBN: 978-1582381565.
- Platnick NI, ed. (2020). *Spiders of the World: A Natural History*. Princeton University Press. ISBN: 978-0691188850.
- Edwards GB & Marshall S. (2002). *Florida's Fabulous Spiders*. World Publications. ISBN: 978-0911977219

Additional readings and resources may be posted on Canvas throughout the semester.

Collecting Equipment: At the start of the semester, each student will be issued a set of **basic spider collecting & curation equipment**, including vials for their specimens and vial storage boxes. Other collecting tools (such as nets and beat sheets) will be available for use during class time. Students are required to provide their own **field notebooks** (to record notes and observations during collecting trips) and may wish to purchase additional (optional) collecting equipment, such as a headlamp for nocturnal collecting. The instructors will provide an overview of equipment commonly used for spider collecting & curation at the start of the course.

Computer Requirement: All students must have regular access to a **computer with a reliable internet connection** to access assignments and other course materials on Canvas, as well as to create and print their specimen labels.

Communication & Conduct

Meeting Policy: If you need assistance with any aspect of the course, we encourage you to come to our **drop-in office hours** (details on Page 1 of this syllabus). Alternatively, you can **schedule a 1-on-1 meeting** with any of the instructors. You can request a meeting with Dr. Auletta via Calendly (<http://calendly.com/anthonyauletta>) and with Dr. Taylor or your TA via email. Outside of drop-in hours, **email** is our preferred method of contact. We will do our best to respond to messages within 48 hours (not including weekends or holidays). As a courtesy, please check the syllabus and Canvas before reaching out; answers to many of your questions can be found there!

Canvas: Important announcements and updates will be regularly posted to the **course Canvas website**, so be sure to check Canvas frequently! To ensure that you do not miss anything, please ensure that your Canvas profile is set to receive notifications.

Email Accounts: It is UF policy that you use your **GatorLink account or Canvas** when emailing your instructors; we will not answer emails sent from other accounts (e.g., personal Gmail, etc).

Professional Conduct: All members of the class are expected to conduct themselves in a **professional and respectful manner** at all times. Please use appropriate etiquette when interacting with your peers and instructors, including during class, on Canvas, and via email. Students who behave disrespectfully or disruptively will be reported to the Dean of Students Office.

Projects, Assignments, & Exams

Spider Collection: Throughout the semester, each student will create a **spider collection** containing 24 properly curated and labeled specimens, all of which must be identified to the family level. Detailed guidelines for the spider collection will be provided to you at the start of the semester. There will be a **preliminary collection check** during the first third of the course (to ensure that you're making good progress), and then your **final collection** will be submitted in two parts later in the semester. See the course schedule below for the collection due dates.

Final Practical Exam: At the end of the semester, you will take a **final practical exam** that is designed to evaluate how much practical spider knowledge you have acquired during this course. This exam will ask you to identify unknown specimens to family, identify anatomical structures, and answer other questions that relate to the content we've covered throughout the semester.

Lab Worksheets: During most of our class sessions, students will be required to complete brief **worksheets** based on that day's activities. These worksheets are designed to help you practice

spider identification and other important skills/concepts. The worksheets are to be completed during class time and must be handed in by the end of the following week's class session.

Extra Credit: Extra credit opportunities may be posted at the **instructors' discretion only**. Any other extra work submitted in order to raise a grade will not be accepted and requests for additional extra credit will not be considered.

Submitting assignments: Most assignments for this course will be submitted on paper (or as physical specimens during class). It is your responsibility to ensure that you submit these assignments during the class period in which they're due; work that is submitted after the class period is over will be subject to late penalties as described in this syllabus. Alternative means of submission (e.g., emailing paper assignments) will not be accepted.

If an instructor indicates that an assignment should be submitted electronically via Canvas, then you are responsible for ensuring that all your work is uploaded correctly and completely by the deadline. Corrupted files will be treated as missing work (= 0 grade) until they are reuploaded correctly and late penalties will apply if your resubmission is past the deadline. So, please always double check your files right after you upload them! If you experience technical problems when submitting your work in Canvas, contact the UF Computing Help Desk for assistance: <https://helpdesk.ufl.edu>. Emailed or paper submissions for Canvas assignments will not be accepted.

A Grading Policies

This course uses a points system for grading. The anticipated maximum that can be earned in the course is **725 points**, distributed as follows:

Spider Collection: **300 pts**

- Collection Check: **20 pts**
- Collection Part 1: **120 pts**
- Collection Part 2: **160 pts**

Lab Worksheets: **200 pts (20 pts ea.)**

Lab Practical Exam: **150 pts**

Class Participation: **75 pts**

At the end of the semester, your total course grade will be converted to a letter grade using the scale below:

93 - 100% = A	73 - 76.9% = C
90 - 92.9% = A-	70 - 72.9% = C-
87 - 89.9% = B+	67 - 69.9% = D+
83 - 86.9% = B	63 - 66.9% = D
80 - 82.9% = B-	60 - 62.9% = D-
77 - 79.9% = C+	below 60% = E

Please note that the instructors do not round up grades– requests to do so will not be considered.

For current UF policies on assigning grade points, consult the following policy website:

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

Disputing a grade: *If you wish to dispute a grade for any exam/assignment, you must contact the instructors in writing after the assignment has been returned. In your message, you must include a specific explanation for why you think the grade is incorrect and how you think it should be changed. An instructor will then arrange a meeting with you to discuss the issue and determine whether or not the grade should be changed. The grade assigned following this meeting will be final.*

Attendance & Participation

Requirements for class attendance and make-up exams, assignments and other work are consistent with university policies that can be found at: <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies>.

Expectations for Attendance & Participation: Due to the hands-on nature of this course, attendance in class is *critically important*. If you are absent, you won't be able to participate in field trips, work on your collection in class, or complete other lab activities. Thus, everyone is expected to **attend every class session on time and stay for the entire session**. Students who miss more than 30% of class sessions will earn an E (= failing grade) in the course. You are also expected to be **fully prepared for and engaged** in each session– this includes completing all required readings/videos, submitting all assignments on time, paying attention during class, and actively participating in all class activities. Participation in our class sessions is worth **75 points (≈10% of your final course grade)**. Your participation grade will be calculated based on the percentage of class sessions in which you are present for the entire time and complete the assigned in-class activities.

Absence Policy: If you need to miss a class due to an **excusable absence**, you must let the instructors know **as far in advance as possible** to discuss arrangements for making up missed work. A list of excusable reasons for missing class can be found on the Attendance Policy website linked above. In the case of an unforeseen emergency, you should contact the instructors as soon as you can afterwards. The instructors may require you to submit **appropriate documentation** of your absence before you are allowed to make up missed work; you can submit the documentation via the Dean of Students' **Instructor Notification portal**: <https://care.dso.ufl.edu/instructor-notifications>.

If you are absent for any other reason or fail to notify the instructors of your absence in a timely manner, you will earn a 0 for any work that you missed and make-up work will not be accepted. Please note that personal travel (e.g., a vacation) is *not* considered an excusable absence, and thus students will earn a 0 for any work missed due to personal travel during the course.

Since this is a **face-to-face course**, students will *not* have the option to join remotely via Zoom under any circumstances. The instructors will also *not* record the class sessions. If you do miss a class meeting, it will be your responsibility to contact a classmate for notes from that session; the instructors will not provide notes. If the content is still unclear after you review your classmate's notes (and the required readings/other materials on Canvas), please don't hesitate to come to office hours or schedule a meeting with an instructor. We ask that you please come to that meeting prepared to discuss the specific questions you have.

Work Outside of Class: In addition to working on your spider collection in class, you will be expected to allocate adequate time outside of class to collect, curate, and identify your specimens.

Late Work & Make-Up Assignments / Exams

Policy on Late Work: All assignments are due **by the date and time indicated on the assignment page in Canvas**. Worksheets are due at the end of the class period in which they are handed out, but you may hand them in up to one week later (i.e., by the end of the next class session) without penalty. If a worksheet is submitted after that grace period, **20% of its total point value will be deducted for every day that it is late**. There is no grace period for the spider collection- all parts of your collection must be submitted by the indicated due date and time or they will be subject to the same late penalty (20% of the total point value deducted per day late).

Extensions: Extensions on assignments will be considered on a *case-by-case basis* (and granted at the instructor's discretion) **only in the event of unforeseen emergencies**. In such a case, you must contact the instructors as soon as possible to discuss your situation. The instructors may require you to submit **appropriate documentation** of your situation (which you can do via the Dean of Students' **Instructor Notification portal**: <https://care.dso.ufl.edu/instructor-notifications>). No extensions will be granted for students who miss a deadline for any other reason or who do not reach out to the instructors in a timely manner.

A note about deadlines: *Remember, the due date doesn't have to be the "do" date! In other words, we encourage you to work on your assignments in advance- don't wait until right before the deadline to submit your work! Last-minute computer problems or other non-emergency situations that arise right before the deadline are not valid reasons for requesting an extension; such requests will not be considered and late penalties will be applied to your work if it is not submitted before the deadline.*

Make-Up Assignments: If you miss class due to an excusable absence, it is your responsibility to contact the instructors as soon as possible to discuss options for making up the work that you missed. As noted above, the instructors may ask for **valid documentation** of your absence before allowing make-up work to be submitted. Due to the time & effort involved in setting up the lab activities, it may not always be possible to make up a missed lab; in that case, students with excused absences will be assigned an alternative assignment to earn the points for that session. Make-up assignments will *not* be provided for students who miss class for unexcused absences or who fail to make arrangements with the instructors in a reasonable time frame.

Make-Up Exams: A make-up practical exam (or incomplete course grade) will *only* be offered to students who miss the exam due to an **unforeseen emergency**. In this case, you must contact the instructors as soon as possible and also submit **appropriate documentation** of your emergency (e.g., through the **Instructor Notification portal** <https://care.dso.ufl.edu/instructor-notifications>). If you miss the practical for any other reason, you will not be permitted to make it up and will earn a grade of 0 on the exam. Remember, personal travel/vacations are not excusable absences, so students will not be allowed take a make-up exam to accommodate end-of-semester travel plans.

Course Schedule

Below is a tentative* schedule of topics & assignments for the semester. Readings and other materials for each session will be posted on Canvas and must be completed before the start of class. All assignments must be submitted by the end of the class period on the due date listed below (unless indicated otherwise).

Week	Date	Topics	Assignments Due
1	Aug. 23 (W)	Introduction to the Course Overview of Collection Guidelines Spider Collecting Field Trip	
2	Aug. 30 (W)	Spider Trapping Techniques Spider Collecting Field Trip	
3	Sep. 6 (W)	Specimen Curation & Labeling Additional Spider Collecting Techniques Spider Collecting Field Trip	
4	Sep. 13 (W)	Spider Anatomy, Part 1	Worksheet #1
5	Sep. 20 (W)	Spider Anatomy, Part 2	Worksheet #2 Collection Check
6	Sep. 27 (W)	Using Dichotomous Keys to ID Spiders	Worksheet #3
7	Oct. 4 (W)	Spider Families 1: Mesothelae, Mygalomorphs, & Basal Araneomorphs	Worksheet #4
8	Oct. 11 (W)	Spider Families 2: Six-Eyed Spiders	Worksheet #5
9	Oct. 18 (W)	Spider Families 3: Orbweavers	Worksheet #6 Collection Part 1 (10/20 by 5:00pm)
10	Oct. 25 (W)	Spider Families 4: More Web Builders	Worksheet #7
11	Nov. 1 (W)	Spider Families 5: Foliage Dwellers- Active Hunters & Ambushers	Worksheet #8
12	Nov. 8 (W)	Review & Collection Working Day	

13	Nov. 15 (W)	Spider Families 6: Wolf Spiders, Fishing Spiders, & Similar Families	Worksheet #9
14	Nov. 22 (W)	Thanksgiving Break- NO CLASS!	
15	Nov. 29 (W)	Spider Families 7: Ground & Sac Spiders	Worksheet #10 Collection Part 2 (12/1 by 5:00pm)
16	Dec. 6 (W)	Additional Spider Families Non-Spider Arachnids	
Finals Week	Dec. 13 (W)	Final Practical Exam 10:00am - 12:00pm in 3118 Steinmetz Hall	

* Although we will do our best to adhere to this schedule, it may be adjusted during the semester to accommodate opportunities, disruptions, and other circumstances. These changes will be communicated clearly via Canvas.

List of Important Dates

Key dates to remember are below– be sure to add them to your calendar now! Due dates for other assignments are listed in the Course Schedule above and/or on Canvas.

- September 20: Preliminary Collection Check (during class)
- October 20: Collection Part 1 due (by 5:00pm)
- November 23-26: Thanksgiving Break (no class)
- December 1: Collection Part 2 due (by 5:00pm)
- December 13: Final Lab Practical Exam (10:00am – 12:00pm in 3118 Steinmetz Hall)

Field Trip Expectations

Observing and collecting spiders in the field is a major focus of this course. There will be several **required field trips** during the semester, which will occur during class time and be within walking distance of our classroom. Dates for the major field trips are listed in this syllabus. Inclement weather may force us to reschedule/cancel some of these excursions; those changes will be clearly communicated via Canvas. Additional smaller field activities may be organized during the semester as opportunities arise; these will also be announced on Canvas.

This means that we will be spending a significant amount of class time outdoors, including on days when it may be hot and humid. On days when field activities are scheduled, you should come to class prepared to spend time outside in these conditions. This includes wearing comfortable, closed-toed shoes and clothes that are suitable for the outdoors. You are also encouraged to bring a hat (to shade yourself from the sun), sunscreen, bug spray, and a water bottle.

If you have concerns about working in the field, please contact the instructors at the beginning of the semester. We are happy to discuss reasonable alternatives for students who have limited physical mobility or other conditions that may impact their ability to participate in these field trips.

In addition to these required field activities, the instructors will organize **optional field trips** outside of the usual class time (including at least one nocturnal collecting trip). Students are *not* required to attend these excursions but are encouraged to if their schedule allows- they are great opportunities to collect additional spiders for your collection! The dates and locations of these trips will be announced in class and on Canvas near the start of the semester.

Laboratory Guidelines

Everyone is required to follow all **lab safety procedures** and other **lab guidelines** provided by the instructors. These procedures will be clearly communicated via Canvas and/or during class. While in the laboratory, all students must wear closed-toed shoes. Also note that food and beverages are not permitted in the lab. During the course, you will be required to handle arachnid specimens and use microscopes & other lab equipment; please treat these specimens and instruments with care! Always ask an instructor if you are unsure about how to use an instrument. Students who do not adhere to these guidelines will be dismissed from the lab and considered absent for that day, and may also be reported to the Dean of Students Office for misconduct. You may also be liable for any damages to lab equipment that result from your negligence or misuse.

Policy on Academic Honesty & Integrity

As a student at the University of Florida, you have committed yourself to uphold the **Honor Code**, which includes the following pledge: *"We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity."* You are expected to exhibit behavior consistent with this commitment to the UF academic community, and on all work submitted for credit at the University of Florida, the following pledge is either required or implied: *"On my honor, I have neither given nor received unauthorized aid in doing this assignment."*

It is assumed that you will complete all work independently in each course unless the instructor provides explicit permission for you to collaborate on course tasks (e.g., assignments, papers, quizzes, exams). Furthermore, as part of your obligation to uphold the Honor Code, you should report any condition that facilitates academic misconduct to appropriate personnel. It is your individual responsibility to know and comply with all university policies and procedures regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the University of Florida will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action. For more information regarding the Student Honor Code, please see: <http://www.dso.ufl.edu/sccr/process/student-conduct-honor-code>.

Instructors' note: Any action that **subverts the learning goals** of the course (or a particular course activity) will be treated as academic misconduct and reported to the Dean of Students Office. This includes- but is not limited to- cheating or assisting others in cheating, plagiarism (i.e., misrepresenting someone else's work as your own, whether it is copied directly or paraphrased), self-plagiarism (i.e., copying/reusing work that you have submitted previously), using ChatGPT or other AI tools for assignments without instructor permission, collaborating with others when it is not permitted, fabricating data, lying to an instructor, and bad faith attempts to undermine the intent of a learning activity. In addition to being reported to the Dean of Students Office, a student will earn a grade of 0 on any assignment that is plagiarized or that otherwise violates these academic honesty policies. This 0 grade is irreversible- it cannot be dropped and the assignment cannot be resubmitted for a different grade. After the first offense, any subsequent incidents of plagiarism or academic honesty will result in an automatic E (= failing grade) in the course. Please see the **Guide to Academic Honesty & Integrity** on Canvas for more information.

Accommodations for Students with Disabilities

The **Disability Resource Center** coordinates the needed accommodations of students with disabilities. This includes registering disabilities, recommending academic accommodations within the classroom, accessing special adaptive computer equipment, providing interpretation services, and mediating faculty-student disability related issues. Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student who must then provide this documentation to the instructor when requesting accommodation.

Disability Resource Center

001 Reid Hall

(352) 392-8565 ♦ <https://disability.ufl.edu>

Instructors' note: We want you to succeed in this course! To ensure your accommodations are in place when you need them, please be sure to have your DRC accommodation letter sent to us as early as possible- ideally at the beginning of the semester.

Campus Helping Resources

Students experiencing crises or personal problems that interfere with their general wellbeing are encouraged to utilize the university's counseling resources. **The Counseling & Wellness Center** provides confidential counseling services at no cost for currently enrolled students. Resources are available on campus for students having personal problems or lacking clear career or academic goals, which interfere with their academic performance:

University Counseling & Wellness Center

Counseling Services, Groups and Workshops, Outreach and Consultation, Self-Help Library, Wellness Coaching

3190 Radio Road, Gainesville, FL, 32611 ♦ (352) 392-1575 ♦ <https://counseling.ufl.edu>

Other UF campus resources include:

U Matter, We Care: <http://umatter.ufl.edu>

Academic Resources (includes tutoring services, study skills workshops, 1-on-1 consultations, and more): <https://academicresources.clas.ufl.edu>

Career Connections Center: Reitz Student Union- First Floor; (352) 392-1601; <http://career.ufl.edu>

Student Success Initiative: <http://studentsuccess.ufl.edu>

Student Complaints: Complaints regarding on-campus courses may be filed at <https://sccr.dso.ufl.edu/policies/student-honor-code-studentconduct-code>. For online courses, please see <https://distance.ufl.edu/getting-help/student-complaint-process>.

Policy on Recording Class Sessions

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are: (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and an instructor during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third-party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

Use of Electronic Devices

You may use personal electronic devices such as laptops or tablets in class, unless otherwise noted by the instructor. However, it is your responsibility to make sure that you use your devices in a **professional and courteous manner**. This includes:

- Limiting device use only to activities that are **directly related to your learning of course material**, such as taking notes or creating labels for your specimens. Using your devices for any other purpose is not allowed in the classroom; doing so is disrespectful to the instructor, distracting to your fellow students, and robs you of a quality learning experience.
- Keeping your devices **muted at all times** to prevent disrupting others around you.
- Quietly stepping out into the hall if you must take a call or contact someone. We understand that emergencies can happen and will not prevent you from attending to them, but we also ask that you try to minimize disruptions to your peers.

If your device use is disruptive or inappropriate, you will be asked to put away your device. Students who repeatedly violate this policy will no longer be allowed to use devices in class and may be reported to the Dean of Students Office.

Software Use

All faculty, staff and students of the university are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against university policies and rules, disciplinary action will be taken as appropriate.

Course Evaluations

Student assessment of instruction is an important part of efforts to improve teaching and learning. At the end of the semester, students are expected to provide feedback on the quality of instruction in this course using a standard set of university and college criteria. Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via **GatorEvals**. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students>. Students will be notified when the evaluation period opens and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl>. Summaries of course evaluation results are available to students at: <https://gatorevals.aa.ufl.edu/public-results>.

* * * * *

It is your responsibility to ensure that you fully understand the policies outlined in this syllabus as well as the policies of the university as they relate to this course. By remaining enrolled in this course, you agree that you have read and understood all of these policies and that you will be held accountable to them.

At their discretion, the instructors may change aspects of the course during the semester to accommodate new opportunities, unforeseen disruptions, or other circumstances. These changes will be communicated clearly in class and through Canvas. The current version of the syllabus will always be available on our course's Canvas website. It is your responsibility to ensure that you are following the most recent version of the syllabus.

If you have any questions, please contact the instructors as soon as possible (preferably at the beginning of the course)!
