

CITY OF MARCO ISLAND WORKSHOP:

Rugose Spiraling Whitefly

Date: Wed., June 20th, 2012

Time: 3 PM - 5 PM

Location: Marco Island Fire Dept.
Training Room
1280 San Marco Drive
Marco Island, FL 34145

Workshop Expert Speakers:

- **Dr. Doug Caldwell, UF-IFAS**
- **Yvette Benarroch, Affordable Landscaping**
- **JB Toorish, Arborjet**

This whitefly species creates a mess by producing copious amounts of white wax and excretes large amounts of honeydew, which is quickly colonized by a black, sooty mold.

Have you seen it in your landscape? Your boat? Your pool?

Favorite host plants (90) include:
Gumbo Limbo, 'Shady Lady' bucida, Live Oak, Mango, PALMS & more!
A systemic insecticide applied as a soil – root drench or injection is the best remedy. Learn several approaches on how to manage it in water sensitive areas.

**PLEASE ATTEND WORKSHOP
